

Class 4 - Computer

Total No. of Questions: 160

Total Marks: 640

SECTION 1: MCQ

Q1 (4 Marks)

While working with MS-DOS, which command is used to restore files that were backed up using the BACKUP command?

- A. COPY
- B. DISKCOPY
- C. RESTORE
- D. STORE
- E. None of the above

Q2 (4 Marks)

Which command is used to suppress the prompt that asks you to confirm that you want to delete the directory?

- A. DELTREE
- B. DELTREE/F
- C. DEL *.*
- D. ERASE *.*
- E. None of the above

Q3 The buffers statement is found in what file?

(4 Marks)

- A. Config.sys
- B. Autoexec.ncf
- C. Autoexec.bat
- D. Neb.cfg
- E. None of the above

Q4 To find out how much memory is available, you could type_____.

(4 Marks)

- A. EMM
- B. MEM
- C. CHKDSK
- D. MEMMAKER
- E. None of the above

Q5 While working with MS-DOS, which command is used to display the contents of a file and pause the display after each screenful of information? (4 Marks)

A. TYPE filename | MORE

B. CAT filename | MORE

C. CAT filename | pg

D. MORE filename

E. None of the above

Q6 What command would you type to list all of the files in the current directory? (4 Marks)

A. DIR

B. LIST ALL

C. SHOW

D. SHOW ME

E. None of the above

Q7 Upper Memory blocks are located where?

(4 Marks)

- A. Conventional Memory
- B. Extended Memory
- C. Expanded memory
- D. Reserved Memory
- E. None of the above

Q8 Which of the following applies to external DOS commands?

(4 Marks)

- A. External commands reside in RAM until called
- B. External commands are stored on disk separately from COMMAND.COM
- C. External commands must always be used with the /e switch
- D. External commands can only be executed from a batch file.
- E. None of the above

Q9 The _____ command allows you to modify the default prompt to provide other information

(4 Marks)

- A. prompt
- B. windows
- C. cursor
- D. click
- E. None of the above

Q10 Filename extensions help identify certain files. What filename extension identifies command files? (4 Marks)

- A. COM
- B. BAT
- C. EXE
- D. SYS
- E. None of the above

Q11 While working with MS-DOS, which command will you use to transfer a specific file from one disk to another? (4 Marks)

- A. COPY
- B. DISKCOPY
- C. TIME
- D. RENAME
- E. None of the above

Q12 Which command is executed before the others when a computer is first turned on? (4 Marks)

- A. Device=c:\emm386.exe
- B. Device=c:\dos\himem.sys
- C. Prompt=\$p\$g
- D. Patch c:\dos
- E. None of the above

Q13 After searching the current directory where does command.com search next?

(4 Marks)

A. C:\DOS\UTILITIES

B. Config.sys

C. Autoexec.bat

D. The Path Statement

E. None of the above

Q14

While working with MS-DOS, which command is used to restore only those files modified since the last backup, from the drive A to the currently logged drive or directory?

(4 Marks)

A. RESTORE A: *.* /S

B. RESTORE A: *.* /M

C. RESTORE A: *.* /N

D. RESTORE A: *.* /L

E. None of the above

Q15 Which command of DOS is used to sort the file in reverse order?

(4 Marks)

A. SORT > filename

B. SORT < filename

C. SORT/R < filename

D. SORT/V < filename

E. None of the above

Q16 DOS uses letters of the alphabet to designate disk drives. How many disk drives can DOS address (recognize)?

(4 Marks)

A. 4

B. 26

C. 1

D. 16

E. None of the above

Q17 Which command is used to display the subdirectory structure of the currently logged drive and pause the screen display after each screenful of information? (4 Marks)

A. TREE

B. DELTREE/F

C. DIR | MORE

D. TREE | MORE

E. None of the above

Q18 You suspect that your automatic modem dialer is not working correctly. Which of the following commands will manually dial the number 123-4567? (4 Marks)

A. AT1234567

B. ATDT1234567

C. AT1234567DL

D. ATM 1234567

E. None of the above

Q19 While working with MS-DOS, which command is used to switch to the monochrome display from color display?

(4 Marks)

A. MODE BLACK

A.

B. MODE B/W

B.

C. MODE MONO

C.

D. MODE CO40

D.

E. None of the above

E.

Q20 Which is LEAST likely to interfere with upgrading to a newer DOS version?

(4 Marks)

A. ROM BIOS

A.

B. Video controller

B.

C. Compressed drives

C.

D. Existing backup files

D.

E. None of the above

E.

Q21 Paging

(4 Marks)

- A. is a method of memory allocation by which the program is subdivided into equal portions, or pages and core is subdivided into equal portions or blocks.
- B. consists of those addresses that may be generated by a processor during execution of a computation.
- C. is a method of allocating processor time.
- D. allows multiple programs to reside in separate areas of core at the time.
- E. None of the above

Q22

What scheduling algorithm allows processes that are logical runnable to be temporarily suspended?

(4 Marks)

- A. preemptive scheduling
- B. non-preemptive scheduling
- C. FIFO
- D. FCFS
- E. None of the above

Q23

Round-robin scheduling

(4 Marks)

- A. allows interactive tasks quicker access to the processor
- B. is quite complex to implement
- C. gives each task the same chance at the processor
- D. allows processor-bound tasks more time in the processor
- E. None of the above

- Q24 What is the initial value of the semaphore to allow only one of the many processes to enter their critical section? (4 Marks)
- A. 8
 - B. 1
 - C. 16
 - D. 0
 - E. None of the above

- Q25 A partitioned data set is most used for (4 Marks)
- A. a program or source library
 - B. storing program data
 - C. storing backup information
 - D. storing ISAM files
 - E. None of the above

- Q26 A base register table (4 Marks)
- A. allows the programmer to write base registers and displacements explicitly in the source program.
 - B. is used to remember which of the general-purpose registers are currently available as base registers, and what base addresses they contain.
 - C. allows multiple programs to reside in separate areas of core at the same time.
 - D. is a term that refers to the control programs of an operating system.
 - E. None of the above

Q27 Special software to create a job queue is called a

(4 Marks)

- A. Drive
- B. Spooler
- C. Interpreter
- D. Linkage editor
- E. None of the above

Q28

Which of the following filename extension suggests that the file is a backup copy of another file?

(4 Marks)

- A. TXT
- B. COM
- C. BAS
- D. BAK
- E. None of the above

Q29

Relocation bits used by relocating loader are specified (generated) by

(4 Marks)

- A. Relocating loader itself
- B. Linker
- C. Assembler or translator
- D. Macro processor
- E. None of the above

Q30 Which of following is/are the advantage(s) of modular programming?

(4 Marks)

- A. The program is much easier to change
- B. Modules can be reused in other programs
- C. Easy debugging
- D. Easy to compile
- E. None of the above

Q31

A compiler for a high-level language that runs on one machine and produces code for a different machine is called is

(4 Marks)

- A. optimizing compiler
- B. one pass compiler
- C. cross compiler
- D. multipass compiler
- E. None of the above

Q32 Which of the following is true about pseudocode

(4 Marks)

- A. A machine language
- B. An assembly language
- C. A high-level language
- D. All of the above
- E. None of the above

Q33 Addressing structure

(4 Marks)

- A. defines the fundamental method of determining effective operand addresses
- B. are variations in the use of fundamental addressing structures, or some associated actions which are related to addressing.
- C. performs indicated operations on two fast registers of the machine and leave the result in one of the registers.
- D. all of the above
- E. None of the above

Q34 What is the name given to the organized collection of software that controls the overall operation of a computer? (4 Marks)

- A. Working system
- B. Peripheral system
- C. Operating system
- D. Controlling system
- E. None of the above

Q35 Which of the following are(is) Language Processor(s) (4 Marks)

- A. assembles
- B. compilers
- C. interpreters
- D. All of the above
- E. None of the above

Q36 The Register - to - Register (RR) instructions

(4 Marks)

A. have both their operands in the main store

B. which perform an operation on a register operand and an operand which is located in the main store, generally leaving the result in the register, except in the case of store operation when it is also written into the specified storage location.

C. which perform indicated operations on two fast registers of the machine and leave the result in one of the registers.

D. all of the above

E. None of the above

Q37

Which of the following is false about disk when compared to main memory?

(4 Marks)

A. non-volatile

B. longer storage capacity

C. lower price per bit

D. faster

E. None of the above

Q38 A disk scheduling algorithm in an operating system causes the disk arm to move back and forth across the disk surface in order to service all requests in its path. This is a

(4 Marks)

A. First come first served

B. Shortest Seek Time First (SSTE)

C. Scan

D. FIFO

E. None of the above

Q39 In which way(s) a macro processor for assembly language can be implemented

(4 Marks)

A. independent two-pass processor

B. independent one-pass processor

C. processor incorporated into pass 1 of a standard two-pass assembler

D. all of the above

E. None of the above

Q40 Which of the following is not true about the memory management?

(4 Marks)

A. virtual memory is used only in multi-user systems

B. segmentation suffers from external fragmentation

C. paging suffers from internal fragmentation

D. segmented memory can be paged

E. None of the above

Q41

In raster-scan colour monitors, colour can be intensified by

(4 Marks)

A. grouping the phosphor dots in a circular pattern

B. having each electron gun controlled by a composite signal

C. using an in-line gun arrangement with a solid metal mesh

D. having each electron gun controlled by separate signal

E. None of the above

Q42 What should be first considered in choosing a plotter?

(4 Marks)

- A. The hardware you currently own
- B. The application for which it will be used
- C. The type of data you will input
- D. The cost
- E. None of the above

Q43 The coordinate system used to describe a workpiece

(4 Marks)

- A. is always two-dimensional
- B. changes from part to part
- C. is defined with respect to a point on the machine
- D. All of the above
- E. None of the above

Q44 The SKETCHPAD system

(4 Marks)

- A. consisted of an cathode-ray oscilloscope driven by a Lincoln Tx2 computer where by graphical information was displayed on the screen.
- B. is used for interactive Graphics
- C. is expensive because it is sophisticated and make demands on the power and resources of the computer.
- D. All of the above
- E. None of the above

Q45 An operational amplifier

(4 Marks)

- A. can be used to subtract two or more signals
- B. can be used to sum two or more signals
- C. uses the principle of feedback
- D. All of the above
- E. None of the above

Q46 The electronic component that has been the key to recent developments in automation is the

(4 Marks)

- A. improved vacuum tube
- B. integrated circuit
- C. diode
- D. transistor
- E. None of the above

Q47

Which industry is the leading user of robots?

(4 Marks)

- A. Chemical industry
- B. Automobile industry
- C. Electronic industry
- D. Shipping industry
- E. None of the above

Q48 In pen plotters, "resolution" refers to the shortest possible line, but in electrostatic plotters it refers to (4 Marks)

- A. the number of dots per inch
- B. the speed per inch
- C. dual-axis tracking
- D. how accurately the plotter returns to a specific point
- E. None of the above

Q49 The "snap" command feature in both AutoCAD and VersaCAD ensure that (4 Marks)

- A. template lines can be removed
- B. objects are entered at specific intervals
- C. identified data are automatically segmented
- D. definable center markers are entered
- E. None of the above

Q50 The ideal solution is to have a system coordinator who will interface with the engineering and manufacturing managers, as well as the

(4 Marks)

- A. finance manager
- B. president
- C. marketing manager
- D. MIS manager
- E. None of the above

Q51 Four basic elements are required for an automated machine tool or production process. They are: input interface, memory, output interface and

(4 Marks)

- A. logic
- B. software
- C. NC tape programming
- D. computer graphics workstation
- E. None of the above

Q52 If the present value in a timer in the TI510 is 8, how many milliseconds is required from the time the timer is started until the output is enabled? (4 Marks)

A. 18.0

B. 133.36

C. 149.88

D. 1275.41

E. None of the above

Q53 Which of the plotters listed below eliminates media size limitations? (4 Marks)

A. Drum

B. Flatbed

C. Electrostatic

D. Pinch roller

E. None of the above

Q54 Which part of the system allows the user to interact with the compiler? (a) Memory (4 Marks)

A. Translator

B. Communications processor

C. Interpreter

D. None of the above

Q55 Direct Numerical Control means

(4 Marks)

- A. using several computers to control one large machine
- B. using one computer to control several machines
- C. complete elimination of a need for a human operator.
- D. eliminating computers from the manufacturing process
- E. None of the above

Q56

Skipping every other line and picking up the skipped lines on the second pass is called

(4 Marks)

- A. interlacing
- B. refresh-vector
- C. raster-scan
- D. stroke writing
- E. None of the above

Q57

The "walk-through" method of programming a robot involves

(4 Marks)

- A. walking through your suggested procedure with your supervisor prior to programming
- B. physically moving the robot through all the motions it is to repeat
- C. moving the robot from one location to another
- D. All of the above
- E. None of the above

Q58 Which of the following is often used as an alternative to the light pen or in association with storage tube displays? (4 Marks)

A. Digitiser

B. Track ball

C. Mouse

D. Tablet

E. None of the above

Q59 When one must sell a project to management, the most important document he or she can produce is a (4 Marks)

A. method for financing the project

B. summary of the problem

C. project evaluation

D. procedure for purchase

E. None of the above

Q60 An encoder

(4 Marks)

- A. is used to send telegraph signals
- B. converts an input to a binary number
- C. converts a binary number to a decimal number
- D. can have only four keys
- E. None of the above

Q61

The COPY command of MS-DOS, is used to

(4 Marks)

- A. Copying files to transfer from one PC to another
- B. Copying files for safe keeping or for record purpose
- C. Copying files from the hard disk to floppy disks
- D. All of the above

Q62

What type of commands are individual programs kept, as separate files on the hard disk (DOS diskette)?

(4 Marks)

- A. External
- B. Internal
- C. Change
- D. File

- Q63 Which DOS command allows you to compress existing disks and to create new compressed volumes? (4 Marks)
- A. DEFRAG
 - B. DBLSPACE
 - C. SCANDISK
 - D. MSAV
- Q64 The PATH command is usually found as part of your _____ file. (4 Marks)
- A. CONFIG.SYS
 - B. CONFIG.BAT
 - C. AUTOEXEC.SYS
 - D. AUTOEXEC.BAT
- Q65 Which of the following represents a correct sequence for the boot process on a DOS machine? (4 Marks)
- A. AUTOEXECBAT, CONFIG.SYS
 - B. CONFIG.SYS, AUTOEXEC.BAT
 - C. AUTOEXECBAT COMMAND.COM
 - D. CONFIG.BAT, AUTOEXEC.BAT
- Q66 Which of the following commands will take you directly to the root directory no matter what subdirectory you are currently in? (4 Marks)
- A. CD \root
 - B. CD\
 - C. CD\..
 - D. CD..

Q67 The autoexec.bat configuration file (4 Marks)

- A. Is run after config.sys on system boot-up
- B. Contains all windows configuration files
- C. Is also known as config.sys
- D. Checks for system polarity

Q68 (4 Marks)

While working with MS-DOS, which command is used to force DOS to recheck all clusters when reformatting a disk?

- A. FORMAT/B
- B. FORMAT/S
- C. FORMAT/8
- D. FORMAT/C

Q69 (4 Marks)

The MODE command of MS-DOS is used to

- A. Display information about several types of devices installed in your computer
- B. Provide various types of control over your printers
- C. Make changes of the current display
- D. All of the above

Q70 (4 Marks)

While working with MS-DOS, which command is used to display a list of deleted files that DOS can undelete?

- A. UNDELETE *.*
- B. UNDELETE/ALL
- C. UNDELETE/LIST
- D. UNDELETE

Q71 While working with MS-DOS, which command will you use to transfer a specific file from one disk to another? (4 Marks)

A. COPY

B. DISKCOPY

C. TIME

D. RENAME

Q72 Which command of MS-DOS is used to copy only files that have been modified on or after the date you specify? (4 Marks)

A. XCOPY/D : date

B. COPY/D : date

C. COPY/M

D. XCOPY/V

Q73 Which DOS command is used to remove and scan memory and disk from viruses? (4 Marks)

A. MSAV

B. DEFRAG

C. SCANDISK

D. VSAFE

Q74 HIMEM.SYS controls (4 Marks)

A. DOS=HIGH

B. RMDRIVE.SYS

C. SMARTDRV.SYS

D. Extended Memory

Q75 You want to view the contents of autoexec.bat on the screen using the "type" command, but it scrolls by too quickly, what switch do you use to make it pause? (4 Marks)

- A. type c:\autoexec.bat /p
- B. type c:\autoexec.bat/more
- C. type c:\autoexec.bat|pause
- D. type c:\autoexec.bat|more

Q76 What switch would you use to view Smartdrive statistics? (4 Marks)

- A. /x
- B. /e:
- C. /s
- D. /o:n

Q77 What command can you add to the AUTOEXEC.BAT file so that your computer temporarily stops in the execution of the file before continuing? (4 Marks)

- A. Pause
- B. Halt
- C. Wait x.xx seconds
- D. Wait until Files="x"

Q78 While working with MS-DOS, which command is used to display the contents of a file and pause the display after each screenful of information? (4 Marks)

- A. TYPE filename | MORE
- B. CAT filename | MORE
- C. CAT filename | pg
- D. MORE filename

- Q79 Which command will be used to display a column file compression ratio for each file of Double spaced disk? (4 Marks)
- A. DIR/W
 - B. DIR/S
 - C. DIR/B
 - D. DIR /C (/C switch introduced in DOS version 6.00)

- Q80 Which best describes a fragmented hard drive? (4 Marks)
- A. The platters are bad
 - B. Data files are corrupted
 - C. Clusters of data are damaged
 - D. Files are not stored in consecutive clusters

- Q81 You suspect a virus has entered your computer. What will not be affected by the virus? (4 Marks)
- A. CMOS
 - B. Boot sector
 - C. Floppy disks
 - D. Program files

- Q82 Which command is used to display the subdirectory structure of the currently logged drive and pause the screen display after each screenful of information? (4 Marks)
- A. TREE
 - B. DELTREE/F
 - C. DIR | MORE
 - D. TREE | MORE

Q83 In DOS, what key would you press to step through the Config.sys and Autoexec.bat? (4 Marks)

- A. F1
- B. F3
- C. F5
- D. F8

Q84 Which of the following commands allows you to make a directory? (4 Marks)

- A. MAKE
- B. DIR
- C. MD
- D. DD

Q85 Which command is used to copy all files from drive A with extension .TXT to the currently logged drive and directory? (4 Marks)

- A. COPY a: *.TXT
- B. COPY *.TXT A
- C. COPY *.TXT C
- D. COPY *.TXT ALL.TXT

Q86 To view any currently running Terminate Stay Resident (TSR's) programs you could type (4 Marks)

- A. Memory
- B. MEM
- C. SYS /M
- D. MEMMAKER

Q87 What DOS program can you run to see which serial ports are detected? (4 Marks)

- A. Comdiag
- B. MSD
- C. Command.com
- D. SDET

Q88 To conserve battery power on your laptop computer. What DOS v6.x command should you use? (4 Marks)

- A. Powermon.exe
- B. Power.exe
- C. Idel.com
- D. Pw.sys

Q89 Which command is used to send the contents of file named REPORT.TXT to the standard printing device? (4 Marks)

- A. TYPE REPORT.TXT TO PRINTER
- B. TYPE REPORT.TXT > PRN
- C. TYPE REPORT.TXT | PRN
- D. TYPE REPORT.TXT | PRINTER

Q90 Which DOS command will format a floppy disk and transfer the system files (4 Marks)

- A. SYS C: A:
- B. SYS A:
- C. FORMAT A: /S
- D. FORMAT A: /T

Q91 While working with MS-DOS, which command is used to combine FILE1 plus FILE2 into new file named FILE3? (4 Marks)

- A. COPY FILE3 FILE1+FILE2
- B. COPY FILE1+FILE2 FILE3
- C. COPY FILE1+FILE2+FILE3
- D. COPY FILE2 FILE1+FILE3

Q92 Which of the following applies to Internal DOS commands? (4 Marks)

- A. Internal commands can be run whenever the DOS prompt is displayed
- B. Internal commands are reserved for DOS-level programming
- C. Internal commands can only be executed from a batch file
- D. Internal commands are stored on disk separately from COMMAND.COM

Q93 Which command is used to suppress the prompt that asks you to confirm that you want to delete the directory? (4 Marks)

- A. DELTREE
- B. DELTREE/F
- C. DEL *.*
- D. ERASE *.*

Q94 Which command of DOS is used to sort the file in reverse order? (4 Marks)

- A. SORT > filename
- B. SORT < filename
- C. SORT/R < filename
- D. SORT/V < filename

Q95 Which of the following filename extension suggests that the file is a backup copy of another file? (4 Marks)

A. BAK *

B. BAS

C. COM

D. TXT

Q96 While working with MS-DOS, which command is used to move file from one directory to another? (4 Marks)

A. RENAME

B. COPY

C. MOVE

D. None of the above

Q97 While working with MS-DOS, which command is used to switch to the monochrome display from color display? (4 Marks)

A. C

B. D

C. E

D. F

Q98 Batch files contain a group of MS-DOS commands that are run in successive order. What filename extension identifies batch files? (4 Marks)

A. COM

B. BAT

C. EXE

D. SYS

Q99 While working with MS-DOS, which command is used to switch to the monochrome display from color display? (4 Marks)

A. MODE BLACK

B. MODE B/W

C. MODE MONO

D. MODE CO40

Q100 The Fdisk command in DOS _____. (4 Marks)

A. Partitions the hard drive for use

B. Fixes erroneous hard drive

C. Formats data sectors on a hard drive

D. Checks hard drive for lost clusters

Q101 While working with MS-DOS, which command is used to sort the file in ascending order? (4 Marks)

A. SORT filename

B. SORT < filename

C. SORT > filename

D. SORT | filename

Q102 To organize files on a disk, MS-DOS separates them into areas called _____. (4 Marks)

A. Directories

B. Buckets

C. Areas

D. Area directories

- Q103 Which two of the following DOS commands are used to display or set the date and time of your computer's internal clock? (4 Marks)
- A. VER
 - B. HOUR
 - C. DATE
 - D. DAY
- Q104 While working with MS-DOS, which command will you use to display the version? (4 Marks)
- A. DATE Command
 - B. VER Command
 - C. DISK Command
 - D. FORMAT Command
- Q105 After trying to unload a TSR, you get an error message saying that other TSRs were loaded after the one you tried to remove. Which of the following commands could you use to see the current load order? (4 Marks)
- A. MEM /P
 - B. MEMMAKER
 - C. MEM /C
 - D. SYS:
- Q106 How would you allow device drivers and TSR's to be loaded into Upper Memory Blocks? (4 Marks)
- A. DOS=High
 - B. Devicehigh=
 - C. Loadhigh=
 - D. DOS=UMB

Q107 Where would you load the mouse driver mouse.sys? (4 Marks)

- A. config.sys
- B. autoexec.bat
- C. win.ini
- D. io.sys

Q108 While working with MS-DOS, which command is used to restore files that were backed up using the BACKUP command? (4 Marks)

- A. COPY
- B. DISKCOPY
- C. RESTORE
- D. STORE

Q109 Each time you turn the power switch on, which control files will the computer check? (4 Marks)

- A. COMMAND.COM, IO.SYS
- B. COMMAND.COM, DATE.COM, TIME.COM
- C. COMMAND.COM, IO.SYS, MSDOS.SYS
- D. CHKDSK.EXE

Q110 Which command is executed before the others when a computer is first turned on? (4 Marks)

- A. Device=c:\emm386.exe
- B. Device=c:\dos\himem.sys
- C. Prompt=\$p\$g
- D. Patch c:\dos

Q111 Which of the following is loaded for CD-ROM support? (4 Marks)

- A. VLM.EXE
- B. CDDEX.EXE
- C. DOSKEY.EXE
- D. MSCDEX.EXE

Q112 Which DOS command would allow you to redirect a printer? (4 Marks)

- A. Type
- B. Capture
- C. Mode
- D. Print

Q113 After searching the current directory where does command.com search next? (4 Marks)

- A. C:\DOS\UTILITIES
- B. Config.sys
- C. Autoexec.bat
- D. The Path Statement

Q114 What is a TSR? (4 Marks)

- A. Test status request
- B. Terminate and stay resident program
- C. Take status request
- D. Token set ready

Q115 You suspect that your automatic modem dialer is not working correctly. Which of the following commands will manually dial the number 123-4567? (4 Marks)

- A. AT1234567
- B. ATDT1234567
- C. AT1234567DL
- D. ATM 1234567

Q116 Filename extensions help identify certain files. What filename extension identifies command files? (4 Marks)

- A. COM
- B. BAT
- C. EXE
- D. SYS

Q117 Which of the following applies to external DOS commands? (4 Marks)

- A. External commands reside in RAM until called
- B. External commands are stored on disk separately from COMMAND.COM
- C. External commands must always be used with the /e switch
- D. External commands can only be executed from a batch file

Q118 While working with MS-DOS, which command is used to restore only those files modified since the last backup, from the drive A to the currently logged drive or directory? (4 Marks)

- A. RESTORE A: *.* /S
- B. RESTORE A: *.* /M
- C. RESTORE A: *.* /N
- D. RESTORE A: *.* /L

Q119 What is the order in which Command.Com searches for programs to execute? (4 Marks)

- A. EXE, COM, BAT
- B. EXE, BAT, COM
- C. COM, EXE, BAT
- D. BAT, COM, EXE

Q120 The term TSR is an abbreviation for (4 Marks)

- A. Terminate Stay Ready
- B. Testing System Read
- C. Terminal Still Ready
- D. Terminate Stay Resident

Q121 Which command of DOS is used to compare two floppy disks? (4 Marks)

- A. DISKCOPY
- B. DISKCOMP
- C. DISKCOPY A: B/V
- D. FORMAT A: B:

Q122 Which command is used to delete the directory and all its contents in one step? (4 Marks)

- A. DEL *.*
- B. RD
- C. DELTREE
- D. CD

- Q123 Suppose you had an incurable computer virus and decided to wipe out all the data and partitions on your hard drive and reformat. What is the order in which you must delete the partitions? (4 Marks)
- A. Extended, Logical, Primary
 - B. Primary, Extended, Logical
 - C. Logical, Extended, Primary
 - D. Logical, Primary, Extended
- Q124 Which DOS command will configure a serial printing port? (4 Marks)
- A. Parallel serial
 - B. Mode LPT1=C0M1
 - C. Direct LPT1=COM1
 - D. Mode printer ()-serial ()
- Q125 While working with MS-DOS, which command is used to specify the size of the disk to format. (4 Marks)
- A. FORMAT/F : size
 - B. FORMAT/N : sector
 - C. FORMAT/T : tracks
 - D. FORMAT/V
- Q126 What does MSCDEX.EXE do? (4 Marks)
- A. Configures hard drives
 - B. It's a SCSI driver
 - C. BIOS setup
 - D. It's a CD-ROM DOS driver

Q127 While working with MS-DOS, which command is used to copy all files from the currently logged drive and directory with the extension .TXT to the drive A? (4 Marks)

- A. COPY A: *.TXT
- B. COPY *.TXT A:
- C. COPY *.TXT C:
- D. COPY *.TXT ALL.TXT

Q128 While working with MS-DOS, which command is used to specify the colour display, 40 columns and color? (4 Marks)

- A. MODE COLOUR
- B. MODE/C
- C. MODE CO40
- D. MODE CHANGE

Q129 While working with MS-DOS, which command is used to compare the disk in drive A with the disk in drive B, specifying to compare only first side of each disk, and only the first 8 sectors of each track? (4 Marks)

- A. DISKCOPY A: B:/8
- B. DISKCOMP A: B:/1/8
- C. DISKCOMP A: B:/8
- D. DISKCOMP A: B:/1

Q130 Using the _____ switch causes FDISK to display the partition status of your hard disk without executing FDISK. (4 Marks)

- A. /show
- B. /display
- C. /status
- D. /part

Q131 What command is used to reset a MODEM when using the "AT Command Set"? (4 Marks)

- A. ATR
- B. ATZ
- C. DTR
- D. DCE

Q132 A _____ boot is when DOS is restarted without turning off the computer. (4 Marks)

- A. Warm
- B. Reboot
- C. Shutdown
- D. System up

Q133 Which two commands enable you to move between directories? (4 Marks)

- A. CD
- B. CHDIR
- C. MOVE
- D. MOVE DIR

Q134 Which command will be used to display file and directory names only, without size, date, and time information? (4 Marks)

- A. DIR/W
- B. DIR A:
- C. DIR/B
- D. DIR/S

Q135 The COPY command of MS-DOS, is used to (4 Marks)

- A. Copying files from one floppy disk to another floppy disk
- B. Copying one or more files on the same disk or directory
- C. Copying two or more files into a single file
- D. All of the above

Q136 While using the DIR command, you can use certain switches with it. Which one of the following (4 Marks)

cannot be used with DIR?

- A. /P
- B. /W
- C. /S
- D. /T

Q137 The _____ switch instructs DOS to display the directory list in a wide format. (4 Marks)

- A. /W
- B. /O
- C. /P
- D. /B

Q138 Which command is used to delete the directory that is empty? (4 Marks)

- A. DEL *.*
- B. RD
- C. ERASE
- D. MD

- A. Autoexec.bat
- B. Control Panel/Drivers
- C. Into Upper memory
- D. Config.sys

Q141 While working with MS-DOS, which command is used to undelete a bunch of files with extension DOC that you have just deleted? (4 Marks)

- A. UNDELETE
- B. UNDELETE *.DOC
- C. UNDELETE/ALL
- D. UNDELETE/LIST

Q142 Which combination of keys allows you to perform a warm boot? (4 Marks)

- A. Ctrl+ESC
- B. Ctrl+Alt+DEL
- C. Ctrl+Shift+DEL
- D. Ctrl+Shift+ENTER

- Q143 Which DOS command is used to detect, diagnose and repair logical and physical disk errors on both, uncompressed and double space compressed drive? (4 Marks)
- A. DEFRAG
 - B. DBLSPACE
 - C. SCANDISK
 - D. MSAV
- Q144 DOS uses letters of the alphabet to designate disk drives. How many disk drives can DOS address (recognize)? (4 Marks)
- A. 4
 - B. 26
 - C. 1
 - D. 16
- Q145 Match the device driver HIMEM.SYS to its operation (4 Marks)
- A. Supports (ANSI) terminal emulation
 - B. Manages the use of extended memory
 - C. Uses expanded memory on an 80386 processor
 - D. Supports code page switching
- Q146 When executed from a bootable hard drive, which command will make a formatted floppy disk bootable? (4 Marks)
- A. COPY C:\DOS\COMMAND.COM A:\
 - B. ATTRIB C:*.SYS A:\
 - C. XCOPY C:\DOS*. * A:\
 - D. SYS C: A:

Q147 Which is LEAST likely to interfere with upgrading to a newer DOS version? (4 Marks)

- A. ROM BIOS
- B. Video controller
- C. Compressed drives
- D. Existing backup files

Q148 When you create a subdirectory within a directory, the process is known as _____ (4 Marks)

- A. directing
- B. making
- C. backing
- D. nesting

Q149 To find out how much memory is available, you could type_____. (4 Marks)

- A. EMM
- B. MEM
- C. CHKDSK
- D. MEMMAKER

Q150 Which command below will instruct DOS to do a "quick format". (4 Marks)

- A. FORMAT A: /QUICK
- B. FORMAT A: /Q
- C. FORMAT A: /QU
- D. FORMAT A: /QF

- Q151 Which internal DOS command clears the screen and places the DOS prompt in the upper left corner of the screen? (4 Marks)
- A. cls
 - B. close
 - C. quit
 - D. exit
- Q152 Filename extensions help identify certain files. What filename extension identifies executable files? (4 Marks)
- A. INF
 - B. PRO
 - C. EXE
 - D. SYS
- Q153 What file contains commands that configure systems devices? (4 Marks)
- A. Command.com
 - B. Config.sys
 - C. Autoexec.bat
 - D. Win.ini
- Q154 Which file executes commands in DOS? (4 Marks)
- A. MS-DOS.SYS
 - B. CONFIG.SYS
 - C. COMMAND.COM
 - D. SYSTEM.INI

Q155 Upper Memory blocks are located where?

(4 Marks)

- A. Conventional Memory
- B. Extended Memory
- C. Expanded memory
- D. Reserved Memory

Q156

The _____ command allows you to modify the default prompt to provide other information

(4 Marks)

- A. Prompt
- B. Windows
- C. Cursor
- D. Click

Q157

Which command will prevent subsequent changes to the file CBT.EXE?

(4 Marks)

- A. RENAME + r CBT.EXE
- B. ATTRIB + r CBT.EXE
- C. COPY + r CBT.EXE
- D. MODE + r CBT.EXE

Q158

In DOS, which of the following keys will bypass the CONFIG.SYS and AUTOEXEC.BAT files?

(4 Marks)

- A. F8
- B. F5
- C. F4
- D. None of the above

Q159 After doing a low-level format, what would be the next step in configuring the hard drive in a system? (4 Marks)

- A. Format DOS partition
- B. Install operating system
- C. Configure DMA channel and back up interrupt
- D. Partition hard disk

Q160 If you do not know the current time, which command will you use to display the time? (4 Marks)

- A. COPY
- B. VER
- C. TIME
- D. FORMAT
