ACKNOWLEDGEMENTS

Hey guys, first of all I would like to thank my parents for everything. Without you guys I wouldn't be where I am today. Thank you for supporting me and believing in me when no one else did. I would also like to thank my friends, family members, teachers and mentors who have helped shape me into the person I am today. You have all supported me through thick and thin, especially when it came down to exams time or sports days! Without your support none of this would have been possible.

FOREWORD

" The first novel I ever read was THE MONARCHY. It's a book that has had a lasting impact on me, and it inspired my love of reading. However, I never would have thought that the same novel would inspire me to write my own. As an avid reader and writer, I was told by many friends that writing is something you "just do not have the talent for" or "it just isn't your thing." This was a common response from almost everyone who knew about my passion for writing stories about vampires. "

" I'm a creature of habit. I like to know exactly what I'm getting into before I dive in, and that can be a challenge when it comes to reading. Some books grab you by the throat right out of the gate, while others take weeks or even months to win your trust. For me, the latter is often more enjoyable because I get to see how well a book will hold my interest over time—and sometimes even during those first few pages. "

" The Monarchy by Yognya gunti was a very interesting and unique book. I had never read anything like this before, so it was really cool to read something different. The way the story flowed was very well written and made it easy to follow. The author did an exceptional job of setting the scene in each chapter with just the right amount of description. "

PREFACE

The word ‘vampire’ has been used to describe any number of different creatures in popular culture. Many of these creatures are based on folklore, such as the werewolf, but others have their roots in literature and film.

The vampire is one of the most popular literary creatures from the past to present. The vampire has been depicted in many forms, but they all have one thing in common; they drink blood. Vampires are usually portrayed as evil creatures who want to suck your blood and make you their slave. They don’t eat food or sleep, but instead they go around killing people and drinking their blood. There are different types of vampires such as werewolves, ghouls, and even ghosts that can also be considered a type of vampire.

But in this story Vampires are shown as good creatures who are sometimes merciless but also merciful.

PROLOGUE

“I don’t know about you, but I can’t wait for the sun to come up. I love the night. The coolness it brings. The way the darkness cloaks everything in its shadow, hiding it from sight. It’s almost as if during the day, everything is too bright or out of place and at night things become more natural and fit into place.”

Chapter - 1

INTRODUCTION

Once upon a time, when the ruler must have at least two wives. In a kingdom called USA ruled the universe a king named John. John had two wives; first wife is Catarina and the second wife is Emily.

Catarina gave birth to three kids, Ivy, Yo and Max. The second wife gave birth to 7 kids, Shin, Tom, Rick, Mick, Yuor, Yash and Wataru. This story is the time when Yo is 5 years old. When Yo is 5 years old then Ivy is the crown prince, Shin is a doctor, Tom is a lawyer, Rick

and Mick are actors, Yuor is a fashion designer, Yash is a priest, Max and Wataru are 2 years old.

During this time a girl being born to the ruler is a blessing in disguise for the whole kingdom. So, Yo was pampered by all her big brothers. Everyone in this family are angels and so they worship the gods but when Yo tries to worship the god, she fells ill or coughs blood. On her 6th birthday two daggers like teeth came out, she was covered by dark black mist.

When everyone came to her room to see what happened, they saw the vampire lord Lindo with Yo. When lord Lindo gave Yo a human hand, she bit the flesh and drank the blood. Her face was covered with blood, her eyes in the color of blood, her nails grew, she became a vampire. No one knows how she became a vampire as both her parents were humans.

So, she was a special child, her blood can cure any disease. Ever since that incident happened, everyone started being away from her no one approached her. Everyone thought she was bad luck for them so she was sent to the

Sakamaki residence where the Sakamaki brothers lived.

The head of Sakamaki had three wives the first one gave birth to two boys- Shu and Reiji, the second one gave birth to triplets- ayato, laito and kanato, and the last one gave birth to one boy- Subaru.

What will happen to Yo during her stay at the Sakamaki residence?

SAKAMAKI RESIDENCE

As Yo became a vampire, she was sent to the Sakamaki residence. The mansion was very big around it were many trees. Everyone in the Sakamaki family welcomed her to their house. She was given a room with a bed, cupboard, desk and a chair. They told her that she should decorate her room herself.

The next morning, she and the Sakamaki brothers went to the vampire school. Yo and Reiji were very sincere and so paid attention to every class. They were not so enthusiastic in

sports so they spent most of the time in library during their breaks. The triplets tried to ask Yo to come and play with them but she refused.

On a full moon night, lord Lindo came to her room which was covered with books and posters of few popstars and the royal family. He came to Yo and gave her a piece of human there was blood everywhere, she was frightened and coughed blood at first and then drank all the blood in the room. Everyone since this happened every time Yo sees blood or is shocked, she coughs blood.

When they visited the holy vampire, he said that it can only be cured by people who know ancient medicine. Everyone heard that there no one who practiced ancient medicine these days, so Yo and Reiji went to different library to study about ancient medicine during their breaks. Yo became sick more often because of this thus was in her room most of the time. Mr. Sakamaki thought of home schooling her but Reiji wanted to be with her as he and her were always together so they take themselves as partners. And then the triplets said they wanted to be wit Yo. As most of them are wanting to be with Yo so he homeschooled everyone.

After few years, Yo' s health became kind of good and she can walk and move. She and Reiji got the basic knowledge of the ancient medicine. As Yo wanted to be cured Yo and Reiji asked to be send to a school of ancient medicine.

Did they go to the school of ancient medicine? Were they able to cure Yo?

ANCIENT MEDICINE (AM)

W hen reiji and yo asked mr. Sakamaki if they can go to AMS, he refused. He said “You both are too young to go to AMS”. The kids said “ But we are 12 years old we can go to AMS “. Still, he refused. Giving up hope they thought of buying a lab to make the medicine.

They started from the most basic one using medicinal plants such as aloe vera, Tulsi, neem, turmeric and ginger. When we get a sour

throat drinking Tulsi tea and ginger may cure it. The diseases inside our body can be cured by neem paste. When we get hurt we can rub turmeric on it. Aloe vera can be used to reduce acne. If we get stomach ache ginger aloe vera tea can cure it. These were the most basic ones.

One day as reiji and yo were looking for AM books. A large book fell on the ground. It read “ancient medicine of world”. Being curious they started reading the book. The first chapter was of siddha medicine . siddha medicine is a traditional medicine originating in south india. Its practiced by sidhars of tamil nadu.

The second chapter was of unani. Unani medicine is a perso- Arabic practiced in muslim culture in south asis. The next chapters were of amp. The oldest written evidence of medicinal plants usage for preparation of drugs has been found on a Sumerian clay slab from Nagpur, approximately 5000 years old. It comprised of 12 recipes for drug preparation reffering to over 250 various plants, some of them alkoiled such as poppy, henbane and mandrake.

The Chinese book on roots and grasses “pen t’ sao” written by emperor shen nung circa 2500 bc, treats 365 drugs (dried parts of medicinal plants), many of which are used even nowadays such as the following rhei rhismo, camphor, theae folium, podophyllum, the great yellow gentian, ginseng, jimson weed, cinnamon bark and ephedra. The Indian holy books vedas mention treatment with the plants, which are abundant in that country. Numerous spice plants used even today originate from india; nutmeg, pepper, clove etc.

Theophrast(371-287bc) founded botanical science with his books “de causis plantarum”-plant etiology and “de historia plantarum”-plant history. In the books, he generated a classification of more than 500 medicinal plants. Owing to his consideration to his topics, he gained the epithet of “the father of botany”, given that he has great merits for the classification and description of the medicinal plants.

Well now they are happy for learning something new about the ancient medicine. Mr Sakamaki observed both of them being happy while reading the book.

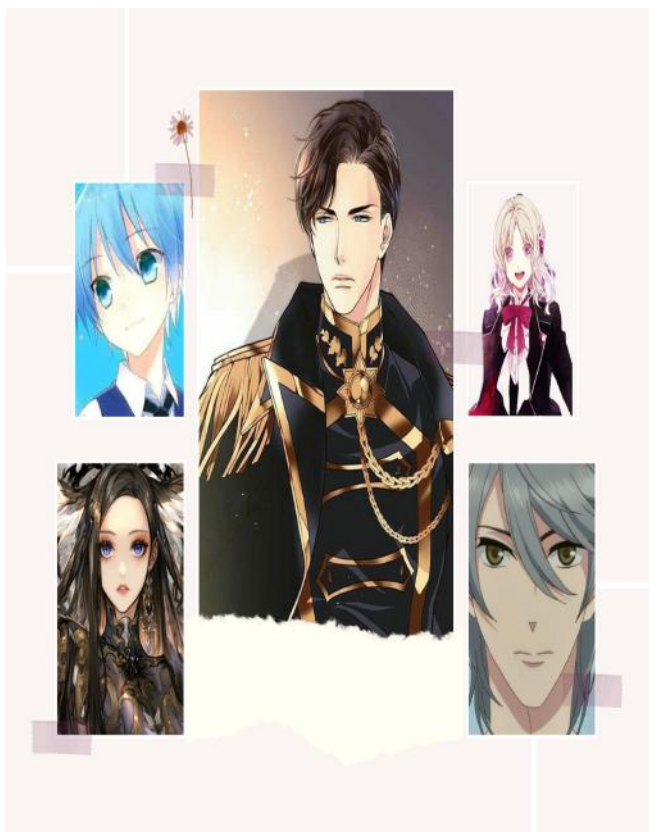

? Will mr Sakamaki say yes or refuse again
