Preface

This book is based on the real-life story of a secret officer who has sacrificed everything for his nation and people. This book is dedicated to all the mysterious officers who would perform their duties and disappear. They are selfless and not even looking for any fame, credits or anything, just considering executing their duties without any expectations or desires.

In this book we will understand the various operations, risk factors and personal struggles of a secret officer.

As the author of this book, I would say that “True Soldiers” are only those who would never step back to perform their prescribed duties for the nation and never have any expectations to get back or never try to get anything like credit for their work.

They are like the wind, we can feel it, but we can't see it. They are mysterious great people who don't think about their family, beloved people; they only have a nation-first policy.

Acknowledgement

This book is based on the real-life struggles of a secret officer. And this book is dedicated to mysterious officers who performed their prescribed duties then disappeared. As the author of this book, I would say, these kinds of officers are real heroes of our beloved India because their victory will never be sung by anyone.

This book is based on the true story of an anonymous person. This book is sought the actual struggles of spy agents in enemy countries. The many episodes covered in this book are based on the real life of a Secret Service Officer.

The objective of this book is to disclose actual struggles which are faced by Secret Service officers whenever they are on a mission.

Hence, as the author of this book, I would announce that this book reveals the truth and real struggles of the Secret Services officers rather than fiction story and also a drama story and also doesn't hear anyone's personal feelings.

However, as the author of this book, I have tried to reveal all such things as they are without any kinds of manipulations or fabrications.

We would all have to admire their patriotism and the one soldier who is always looking to die for the nation with the Indian national flag, but these mysterious soldiers are very

unfortunate that they will not even get a 5-foot pit for their dead bodies.

Episode I

Join of Indian Secret Services.

It was fantastic experience of my life when I have joined an Indian top secret agency. It was my dream to serve the nation without keeping anything like personal interest.

I got a chance to served India in the different manner hence I joined the services without thinking twice in this manner.

In August 2011, I have shifted to New Delhi after completion of my bachelor and I wanted to prepare for civil service that was why I took this decision. It was my dream to be An IAS officer and serve the nation.

With a dream to be an IAS officer, I came to Delhi and join Vajiram & Ravi IAS academy and also started master in chemistry and also after that I had started to pursue PhD in chemistry.

Now the time has arrived to join India's top secret services. The top services officers were approached me and also invite me to join India's Top Secret Services in order to protect the nation externally.

I want to say something about myself and also my patriotism. I am very patriotic person and I do believe in Shrimad Bhagvad Gita and it's a blessings of lord Krishna that I got a wits and skills. I am always thinking about

others before myself and I am trying to serve my nation as much as I can.

While preparing for civil service examination, I got tremendously influenced on a life of Indian freedom fighters and my ideal person is Shaheed E Aazam Bhagatsingh and there are also other freedom fighters on whose life, I am influenced like Khudiram Bose, Kartar Singh Sharabha, Madanlal Dhingra, Sardar Ajith Singh, Sardar Singh Rana and so on.

I have also joined many academic courses because I want to gain a maximum knowledge with an intention to serve the nation.

My Dream is whenever I die my dead body will be covered with Indian national flag.

How could I meet an official of secret agency?

One day, I was in chemistry lab and I was doing an experiment in the lab. The attender of my department actually approached me regarding the information that someone's wants to meet me. I said okay, after that I went there and meet them. Actually I was looking them in university campus but they were looking me in isolated room at where they were organised the meeting with me. I found that my research guide is also with them and he welcomed me in the meeting.

The meeting had been started so after that they were asked about my academic skills and knowledge and they also were examined the level of my patriotism. They had already

collected the all information about my family, friends, relatives, native place and also all the research they did on me. The meeting was ended after 3 hours and 25 minutes.

On the next day, they again approached me and asked me to meet other team of high of higher officers who were part of secret services.

I could find that my interview will be held and other evaluations regarding my personality were conducted. The patriotism is required most while working in secret services.

The different phases of interviews and different criteria's, they also were set respecting to be got selected in this services.

When I came to know that I got selected finally , at that time I got tears and busted out that I got a chance to serve my India without taking a credit of the service for the nation (most important for me that was desire less services.)

The different phases of my interview in which they were examined many things like my personal life, family life, student life and trust worthy person whether I was or not. The interview was very tough for me, actually they had all the information about me like my birth, family background, student life etc.

I was totally shocked when I came to know that they had all the information even my body's Mark's in the form of bio data. They even knew my friends and girlfriends etc.

They even knew that my cell phone was stolen when I was pursuing my bachelor degree. I was totally shocked again

when they asked about Sonakshi Chauhan who was my batch mate during my bachelor, she was very close friend and in entire college, the other fellows would considered her as my girlfriend. I was with pure heart at that time hence I was trying to access my love and respect to all the people as I am following the supreme instructions of lord Krishna. There were nothing wrong in my about her, she was only my best friend, nothing more than that.

After t hours debate, I released from that place and on the 3rd day after that interaction, I came to know that i got selected in this secret service but i wanted to prepare for civil services examination hence I kept continue to prepare for it because it was my dream to be an IAS officer and I also wanted to make my India rather better than heaven and serve our beloved India in any context hence I accepted the offer of this secret service and in coming week my training started.

The Various Phases of Training.

1) First Phase Of Training :-

The training had been initiated at New Delhi in which there was how to hide our identity and work in this kind of secret services. I had been passed from the hard training and I had learnt many things throughout the first phase of training.

2) Second Phase At Hyderabad :-

In the second phase, I got a training of shooting at academy, Hyderabad, Telangana state. I this

training I was trained the shooting of sniper rifle, German Revolver (Mauser 96 Rifle), American Pistol, Automatic Rifle etc.

3) Third Phase At Bangalore (Indian Institute Of Psychological Research) :-

At here, I got a training of mental and emotional skills and psychological health. I taught criminal psychology etc.

4) Training In Russia & USA :-

IN USA.

At Washington DC (Under FBI & CIA) - The Training Underwent.

IN RUSSAI.

The Training under Russian Intelligence Agency.

⇒ Training Under various countries and under various organizations.

After completion of the training, I was prepared for the secret operations and consignments. Actually lord Krishna is always with me so I could complete the toughest training in which I learnt many things especially how to recognize the person on the basis of facial expression or behaviour.

The eligibilities For Indian Secret Services.

- 1) Patriotism: - The total dedication is required most to join this kind of services. The patriotism is playing pivotal role in this matter.

- 2) Truth & Honesty.
- 3) Sincerity towards Duty & Responsibility.
- 4) High Decision Making Efficiency.

- 6) Mental Stability: - The selected the person is very strong by mentally and emotionally.
- 7) Good in Communication: - The Person must be good in the communication.
- 8) Multi- Lingual: - The Person must know multiple languages.
- 9) Emotionally Intelligent.
- 10) Higher Working Efficiency - Multi Tasking Personality.
- 11) Ability to keep all secrets in secret mode
- 12) Not Able to trace easily.
- 13) Highly knowledgeable person.
- 14) Easily Understand A Facts & Trust.
- 15) Recognition of the People & Their Behaviour.
- 16) Operative Mind.
- 17) High Tolerance Power.
- 18) Having High Torturing Power - physical and mental both.
- 19) Ready to Die For the Nation.

- 20) Skills to bewilder the people & Hide their identity.

Various Duties of the officers in the secret services.

- 1) Field Officer.
- 2) Technical Staff.
- 3) Cyber Security.
- 4) The Team for Coding & Decoding Data.
- 5) Satellite Imaging & Analyst.
- 6) Data Analyst
- 7) Team of Chemist ➔ Specialist In Drugs & Research (Narcotic Drugs).
- 8) Geographical Analyst.
- 9) Team Of Physicist ➔ Having a knowledge and skills in the field of nuclear and space physics.
- 10) Higher Authority ➔ Directly Link with Prime Minister Office (No Intermediator).

(Note: - Here Each & Every Officers have keep their identity secret, and they are not entitled to leak any kind of information regarding their works).

Episode II

Spy Mission in Nepal.

A Story of Annapurna Conservation Area.

When Indian spy agency got an information regarding the money laundering in the area of Afghanistan from Pakistan through Nepal. The amount was high hence we got a doubt regarding this money transaction. We have searched and find out the link between Pakistan and Afghanistan with Nepal. We could find out ultimately. However we traced the people who were associated with this transactions, we activated our network and try to collect all the information and interpret them. After getting the information from our officers, we got to know that the transacted funds will be utilized into the terrorism especially in India.

We had decided to move Nepal in order to get a more information and get these all people to be caught alive to know the exact plan of these all people who had a plan for terrorist attack on India. On the next day, we (team of 11 people) were departed for Nepal. We had reached after 5 days journey because it was fully confidential mission and in which we had to keep it most secret and not even reveal even single information about the operation.

My Experience in This Mission

This was the first operation of my life in which I had associated and accomplished this operation but before that

I had forced many problems because of less experience. I was trying to learn from my senior and well experienced officers.

The problems which I faced during this operation.

- 1) The Communication ➔ I could not establish the proper communication in different regions or unfamiliar regions and also people. This is most important for the secret officer to establish a best kind of communication and try to seek an information as much as we can.
- 2) To Identify the People from Their facial expression and behaviours ➔ I learnt the neuro-linguistic training but however I had to implement and made a proper plan to identify the thoughts of the people by their Behaviour.
- 3) The Operative Mind ➔ This is the most important that we have to keep our mind open in all the circumstances.
- 4) Mental Stability ➔ The secret officer must be mentally strong or stable and have to face all the conditions but however it was my first operation and I didn't have any experience in this field so it was quite challenging for me.
- 5) Emotional Intelligence ➔ I was facing a problem to control my emotions and I believed that our emotions are always reflected on our behaviour so I was trying to control my emotions and desires.

This would be the most important and very essential in this services.

We reached at the place where these all things were happened. We had traced that location and put these all suspicious people were on the surveillance. Total 3 days total surveillance, we caught 2 people and after interrogated them .we came to know many factual information from them. There were planning for a planting a bomb in different parts of India. We had collected all such an evidences and evaluated them to stop this kinds of attack.

We were departed back to India as soon as possible and informed these all to the higher authority which was the office of prime minister. After that we consented regarding to take an action on order to protect the people and stop this kind of terrorist attack on the various part of India.

We came to know about what were the target areas hence we were planned accordingly and formed the team. After 12 days of the operation, days and nights work, we could find these people and ultimately they caught. Actually these people were belong to sleeper cell.

My Role & Responsibilities during the Operation.

- 1) To collect the information from the ground level.
- 2) Surveillance of the suspicious people. I had to track the diurnal activities of these people.
- 3) To collect a finger print, DNA Sample, and other excreta of these suspicious people especially of those thrown in garbage.

- 4) Try to communicate with a people and try to know about the suspicious people.
- 5) To Make a final report and submit it to seniors.

These above all were my responsibilities during the operation. Somehow I did a satisfactory work. After these all actions we could successfully collect the 50kg of RDX, Potassium and sodium power and also other explosive material which were to be used in making bomb.

The mission was finally accomplished after getting all the information hence we could stop the terrorist attack on the various part of India.

Episode III

Spy Operation in Afghanistan.

I have already accomplished the 1st operation, I got many ideas and too much experience regarding how to execute the operations. In this mission, I got a new experience because of the different languages and different races of the people. In this operation, I must have to speak in Urdu and Afghan language only.

I had already studied about the history of Afghanistan (Hotak Empire , Durrani Empire , Emirates Etc.) and also about geographical locations , atmosphere, climate , the people , tendency of the people, culture, religion etc.

We got an information about ISIS agents who were planning to execute the terrorist attack in the area of POK (Pak Occupied Kashmir) and also India occupied Kashmir (IOK).

We got an information regarding this one, we had to execute the plan to launch the mission in order to stop the terrorist attack on the respective areas.

We all, were prepared the plan to move Kabul city and spread our team in all the parts of Afghanistan. We had a doubt, these kinds of activities were being taken place in the various regions of Afghanistan as per the ground report.

We called on the meeting and tried to understand entire scenario and also we made a proper plan to execute this operation. As per the ground report, we had to work and identify these regions from where they were operated and simultaneously these people actually instigated the Pakistan Aawam (IOK & POK) to reject the Indian occupancy.

On the next day after calling meeting, we were decided to launch the mission. We decided 10 officers team, we also decided to approach other disguised officers who were staying in Afghanistan.

We bifurcated 10 officers team into 5 sub group then each and everyone started the separate journey to reach Kabul and also other cities of Afghanistan.

After reaching there each met to the local informer regarding the infiltration of these activities. We reached at our decided place. I reached at Khwazagak city of Afghanistan. It was barren areas and I had to wear the Muslim clothes and started to speak Afghan and Urdu language which I learnt in my training. The atmosphere was very dry and moderate so I could face a breathing problems. I started the investigation and trying to figure out the actuality of these action which was planned by these people against India. Already they forced 12 Afghanis to join ISIS in Afghanistan.

I faced many problems of my health because of dry atmosphere, I was infected of flue, viral and also respiratory problems however we needed to start the mission hence we communicated with our all team members who were placed

at the different places in the Afghanistan. We successfully collected all the required information and formed the detailed reports and sent these reports to Prime Minister Office (PMO) after that we were waiting from PMO to get approval to execute the operation

Finally we got an approval from the prime minister office and also from high command regarding to execute the operation in the marked areas. We planned accordingly and started as per our plan. We attacked on the secret places of ISIS barricade and 2 officers injured and 1 got killed during this operation and I also got injured by bullet which was just slightly touched my right elbow. After gathering all the information and killed the terrorists, we were planted IEDs to destroy these secret bunkers.

We destroyed this secret bunker of ISIS and rescued around 20 people who were forced to join ISIS and planned to wage a war against India. There was also US army in Afghanistan which was working with Taliban of Afghans. Here I would say, after this operation, we all started to trace by ISIS and other local Intelligence agency. We collected around 10 hard disks, 5 secret files and also 20 different articles from that place.

After studying properly of these all collected information, we understood the actual intentions and strategy of ISIS against India. After this operation, ISIS and other groups became conscious and more in the alert mode but our team did their Jobs in this context.

Episode IV

Spy Mission in France.

The secret battle field in France.

One day, we were in India and we were watching an international transaction from Bangladesh to France. We tried to collect all the information regarding that transactions and we came to know that the transactional amount was very high and we also got an Information from their tapping a phone and we found that they were talking in a code language and we recorded all such a things and tried to decode it.

After interpret all the information and these all recordings, we were found that there was one person who was living in mid Pyrenees city of France who was indulged in this transaction and we put that person on the surveillance and from the local informer, we were started to spy on that person about his daily life and where was he went and what did he eat and also family background as well.

After making a report, we submitted final report to high command and high command and Prime Minister Office were scheduled to organise a meeting in order to talk on this matter. We were presented in that meeting and ultimately PMO and high command were decided to launch the operation in France to get more information regarding on this.

Finally, we were informed to form a team and I was chosen in a 3 member's team for this operation. We were formulated a proper plan to launch the operation. We were prepared to put our plan into action and waiting for the final approval of the plan from high command.

We were provided all the required materials (Arms & Ammunition) for this mission.

On the 5th day, we got a final approval to execute the operation. We were departed to France but individually we were departed on different date and separate flights and we met in Paris city of France like we had never met before however we were transferred all the information for the operation and try to reached that place at where we traced that suspicious person.

On the different days and different times, we were reached at the exact venue and we were tried to communicate with each other's and tried to collect all information about that suspicious person. When we reached there, we came to know that one lady and one old person were associated with him and execute entire plan to breach a security of Indian army and they were tried to controlled Indian army.

We got to know all such a things and tried to find out what was the exact things and prepared a ground report and we also got a support and help from Director General of External Security (France) and 2 officers from France intelligence were associated with us in this operation. And very next day, we were caught these all suspicious people

who were involved in the conspiracy against India and this could happen only with the help of France government.

As soon as, we got an approval from Indian government, we asked to get a support from France Government. We were launched the attack on the residential places of that suspicious people but ultimately we got 2 people alive who were directly involved in the conspiracy. We tried to get a more information regarding what they planned and what was the objective behind their plan.

5 days constant interrogation, we came to know many things regarding what was the exact plan and who were those people involved in this conspiracy.

We were thankful to France government for coordination and helping us in this operation. We asked the France government to take these all captured people to India for further information and after gentle talk with both countries prime ministers , we were allowed to take them to India in a special charter plane.

Episode V

Mission in Pakistan.

This would be my 4th spy mission in the most dangerous country. People would never think even in the dream about this country. I didn't have a fear before moving to Pakistan because I had heard many things about Pakistan. If I am caught in Pakistan by their agency, then I will have to face a situation rather than hell. Even though I was ready with my spirit and patriotism because I had already taken an oath to serve the nation till the last breathe of my life and I could go to any extent for my beloved India.

On last night in India, I prepared many things, like behaviour, communication in Urdu and Hindi and other things as well. I was sent to Pakistan with certain responsibilities and also special work and needed mental as well as emotional strength. At that time, I would only have a thought about accomplishing a given task and work for my beloved India. At that time, I had decided whether I would be living or not, but I would never let down my beloved India and I had only one option: whether you to go or die.

I got ready for the Delhi to Lahore flight and that day was Wednesday and an early morning flight was there, and I would have to catch it. I have already learned how to read

NAMAZ or pray in a mosque. I spent almost 27 days in Pakistan in order to collect information and spying there. Let's get into the entire spy mission.

In the early morning, at 2 o'clock, I got ready to get a flight to Lahore and that was a Wednesday and my flight would be through Delhi (India) to Istanbul (Turkey) to Lahore (Pakistan). Hence, I was getting ready to catch my flight and my flight took off on time at 5:30 PM and the landing time would be 5' o'clock on the next day. I would have a total of 24-hour long journey to reach my destination.

I was boarded in a flight with a new identity card and totally disguised and ready to move towards my destination. It was a Turkish flight from Delhi. I boarded from Indira Gandhi International Airport, terminal 1.

I was passed from passport verification and visa verification and also customs. My baggage was checked by customs officers, then finally, I got cleared all things and got a seat on the flight for the journey. The journey started, and I was sleeping on the flight because I didn't sleep on that day on account of catching flight and other stuff.

After 3 hours, I woke up and moved to the washing room then I asked for food stuff in a foggy, I ate some food, then started to read newspapers and magazines and after an 11 hour journey, I arrived in Istanbul, Turkey.

There was a layover, I was deboarded from the flight, and I went into the waiting room and waited for the next call to board the flight. I thought about having food and a little

tea at the Turkish airport, so I went to the stall and asked to get a tea and some snacks.

I was unwell at that time, maybe mentally and emotionally, but I had full faith in my Lord Krishna that he wouldn't let me down, and give me all the strength and stability to do so. I was chanting a mala (green color mala chanting beads) of Hare Krishna Mahamantra eternally (not loudly) because I knew that if I did so then I would easily be identified by the other country's spies, so I was totally aware and also watching each and everything happening around me.

I was a well-trained officer and very patriotic, so it was very difficult to identify myself. Hence, I didn't face any problems. I would always prepare for upcoming problems and situations.

I was totally aware that if I got captured, then I would never come back home, and they would torture me to any extent. I heard that they would force me to eat human faeces and also peel off my nails and skin. I was ready to go at any extent for my India, so nothing would deviate me from my way. Always chanting "India India India....."

Finally, I got a call for a boarding flight, then I had boarded in flight to move to my destination to Lahore. I took my seat on the flight, and I was tired, so as soon as I took my seat on the flight after that, I slept.

I would avoid speaking to anyone on the flight because of my work, and I observed everything and I noticed nothing suspicious. Finally, Finally, Finally, my flight landed at Lahore airport early in the morning at 5:30. I got someone at the airport who actually came to pick me up from the airport and drop me at my destination.

It was my first time in Pakistan, and I was totally disguised.... (Total 27 days in Pakistan).

12 Days in Lahore.

I landed very safely in Lahore and reached my destination. Almost 12 days. I had been in Lahore for my work and tried to get information from these people. I was very prepared for an actual situation and tried to understand the circumstances and people's behaviour and mentality.

Day 1st.

The first was passed in order to understand the actual situation and the actuality of the people and I started communication with people who would help me in collecting information from them.

From the first day to the last day.

I used to pray in a mosque 3 times a day and also visited various mosques in order to pray there and also surveillance the people who were involved in the anti-India conspiracy.

I have already informed the local terrorist group in Pakistan were planning a big terrorist attack on India, so I would have to collect such information by which the Indian government can stop this kind of terrorist attack

There were 5 days passed by roaming in the entire Lahore city. Finally, on the 6th day of Lahore, I found the person who would be linked to this particular deadly attack on India, so I put that person under my surveillance and tried to observe each and everything about that person. Day by day I came to know many things, and ultimately I confirmed and identified that person.

On the 7th day in Lahore, I came to discover another big link of that person with local religious groups and also the political leaders of Pakistan.

I was moving behind that person day by day in various places in Pakistan and finally, from Nasserabad east, I caught three people who were involved in the terrorist attack on India.

On Days 8 to 12 in Lahore, we found 2 more people and killed all three and also collected all such information.

A lot of crucial information we found, and ultimately we worked according to the information.

Day 8th.

Allama Iqbal Town.

I had been in Allama Iqbal town while chasing that person and his fellow members. They went to the market and started to talk with someone in Allama Iqbal Town in Lahore City.

I observed all these people and followed them and also tried to communicate with them. They entered the mosque, and they started to pray (Namaz) in the mosque,

and I also entered the mosque and started to pray (Namaz) in the mosque.

They left the mosque and started to move to another place. I was following them.

I had simply said.....

Small Conversation.....

Me:- Aslam Walenkum Bhai Jaan.

Irfan :- Walenkum Salam.

Irfan :- Aap kaise ho bhai jaan ? Bhaijaan aap naye dikh rahe ho yaha pe...

Me :- Mai theek hoon bhaijaan , haa bhai yah pe mere Bhaijaan aur mere bhaijaan rahete hai , unase mai milane aaya hai , mere gaon Mirpur hai jo Sindh region mai aata hai.

Irfan :- Mai theek hoon Bhaijaan. Theek hai aap apana dhyan rakhiye.

Me:- Sukhariya Bhaijaan , Aap bhi apana dhyan rakhiye.

Here was a small conversation. I found that they were both talking with someone and both had moved home, so I beckoned the other person who was in my support to follow that new person, so I started to follow him, and later I had joined to follow that person.

That person had boarded a bus for Valencia town nearly half an hour from that place where we were.

Valencia.

There was a small town in Pakistan when I was chasing that person. I had arrived at Valencia town in Lahore. That person who I was chasing entered a building and talked with some people. I had noticed that a person would have carried a black-colored bag from home.

Kingra.

That person moved to Kingra town and is still chasing that person again and again in order to communicate with that black-colored bag.

Day 9th.

Johar Town.

The next day, I arrived at Johar Town and also Green Town in Lahore City while following that person.

Day 10th.

Faisal Town.

Next Day I had arrived at Faisal town in order to search a person.

Day 11th.

Kot Lakhapat.

I had moved on Peco Road in a Lahore City Multan.

Ghazi Chowk.

Day 12th.

Finally Nasserbad East.

Finally, I got 3 people, and I was entered into a home in which all these people were situated and planning something. Very carefully, I entered this place with a gun with my colleague officers for this mission. Slowly, we entered a home in which they were all situated, but unfortunately, one among them all saw me and started firing on me, so, in defence, I started to counter-fire on them.

Finally, after a long counter fire, I killed 5 people at that place and collected all the documents, mobile phones, hard disks and other materials from there, and we also leaked a gas cylinder and set them afire in order to destroy all kinds of evidence and show that incident as an accident.

We analysed all the evidence, and could find trash of this evidence in Multan city. Therefore, we have decided to move to Multan city in the Punjab province of Pakistan.

We caught a bus for Multan city and finally left Lahore and travelled to Multan.

Day 13th To 17th in Multan City.

Multan City.

I had arrived in Multan city in Pakistan because we had found evidence in which we needed to do the work over there. I arrived to Gulshan Town in Multan city and tried to trace those people who were planning a terrorist attack on India. I had almost been 4 days in Multan city and I had traced people who were suspicious, and I had a plan for a big terrorist attack on India.

By the next day, I had started to follow these people and observed each and every single movement of those people. I was literally surprised that those people who were involved in the 26/11 Mumbai attack would have a plan to attack India rather bigger than 26/11.

I had a chance to get revenge against all these bloody people. They had modern equipment or weapons, and it was very difficult for me to fight counter. So we had decided to kill these bloody people one by one.

Hence, I had distributed our officers in four teams and killed these bloody people as soon as possible before they reach us or will know about us. We all had to kill, and I had already instructed my officers that if anyone who would be killed by these people or be caught alive, never ever to open their mouth and kill yourself before they started disclose any information.

The operation had been started and work had been done thoroughly. The Indian government had appointed me for special purposes and I had knowledge of chemistry and biology, and we had doubts that the terrorist group had planned a chemical and biological attack on India.

Day 18th & 19th.

I was arrived at Rawalpindi City of Pakistan in order to collect the information.

Day 21st To 23rd.

I had been to Peshawar city of Pakistan for further investigation.

Day 24th & 25th.

Bannu was a small village near Rawalpindi city Of Pakistan.

Day 26th.

Abbottabad village was located near Islamabad city and it was at the border line city hence we were there for further investigation.

Day 27th.

Finally, I got a flight from Islamabad to Muscat and at Muscat we changed our identity and I got the flight for Dubai and at Dubai we again changed our identity, and we took a flight to Delhi from Dubai.

Episode VI

Actual Struggle in India.

This would be very worst phase of my life in which I faced most adverse situations. When I was in New Delhi and my father started to look a girl for me for marriage. He pressurised me to get married as soon as possible. At the same time, he would like to propagate me as the most eligible and highly educated person who studied like anything and most degree holder person as well. My father had a proud feeling on me as I am preacher of Shrimad Bhagvad Gita and as well as running many NGOs to empower India.

When some people in our family relation didn't like, my fame and my name hence they got jealous and my father was not aware about all the facts regarding my post and position and also about my secret service. Actually my father didn't give any documents which were related with my work but my cousin maternal uncle who had stolen my documents which were with my father and made these all documents viral in order to propagate my name but at the same time they had a wrong intention or plan regarding to disclose my identity, by which whether I will be killed or kicked out from my service.

My maternal uncle who started to viral my documents as much as he can. He called me at several time to disclose my

other documents which were related with my secret service. I could clearly understand his real intention.

The consequences of this action which was done by my cousin maternal uncle....

- 1) He made viral of my profile, my service related documents, NASA, ISRO, and Other service related documents with my photos. The resultant of this act was that I kept on surveillance on terrorist groups because they came to know that this person is working secretly for India and they started to put me on their surveillance as watchdog.
- 2) The terrorist organization like JEM (Jaish E Muslim), ISIS, LET (Lashkar E Taiba). Here the question would be raised how could protect myself from these all organizations? My senior officers who were approached me and they said whatever documents, he made a viral, we had to declare those documents as fake documents in order to protect me from the terrorist group.
- 3) My officer were shielded me by keeping me hide, I had submitted my cell phone , sim card blocked , my all the bank accounts were blocked or instructed me to not use or not to do any kind of transactions. However I had in one room for four months in the total isolation mode. My seniors were not allowed me to come out from the room and not allowed to use toilet alone. There were no

privacy, these all officers were tried to keep me private from terrorist group.

- 4) Later on, the declaration of these all viral documents fake, I got a relief breath. But at the same time, I got defamed on the eye sight of family members and relatives. I was mentally tortured by the relatives and family members regarding these all things and I didn't have an explanation at that time.
- 5) My situation was very typical and I was not able to understand what I ought to do and what ought not to do. However, with a support of parents and my senior officers, I could handle the situation. But this situation took me in very depressive condition and that the depression which was motivated me to commit suicide but I was mentally strong and well trained officer so I didn't do it hence I could survive.
- 6) I had stopped to communicate even with my parents and other family members for a certain period. However I was in severe depression but I had a full faith on my beloved lord Krishna.

Somehow, I could tackle the situations. But I had informed at that time when I joined secret service that in future, if you identify would have been disclosed then you were not entitled to work with this service.

I knew that after this incident, I will no longer part of this kind of services however it was my dream to work for India without getting any kind of credit.

I will have to leave or I would have to say to that I will be thrown out from this service just because of this incident. I was very upset about to get lost a chance to serve our beloved India because I knew that I could done better thing to protect our India and our Indian people from terrorist.

However there were Emergency arose out, my senior were approached me and asked me join an operation which one was against a terrorists at a forest of Kottayam district of Kerala. We were traced a suspicious activities and from the ground report, we got to know that there were more than 100 kg TNT and other explosive composite were traced.

Immediately, we were launched the operation to track these all terrorists. We went Kerala, we landed at Kochi then by bus, we reached at Kottayam district of Kerala. We got an exact location of these all terrorist who were situated into a forest of Kottayam district.

We launched an operation to get them capture alive. We started to do watch on these all people later, we were decided to launch an operation after 3 days consistent surveillance.

There were counter firing between we and them. I got injured by 3.5 mm bullet on my right leg. I got a deep injury at that time but however we got captured these all terrorist alive and also captured TNT and also explosive materials.

After having injury, I had to walk because there were no facilities in which we could move out by car or two wheelers. After walking of 3 km with a support of officer , army campus Jeep was arrived to take me back and I was admitted in army hospital (salvation Army Hospital) and many doctors were started my treatment and within 2 days govt. Called two doctors from Italy in order to treat me.

The reason behind I got injuries by bullets were, one of the terrorist who recognized me because of the viral of my documents. When we checked a cell phone, and laptop of their belongings, we came to know many things which are related with me like my pics, my profile, my family details etc. However I could save my life and my senior and colleagues were protected me at that time. I would thanks to my colleagues and senior officers to protect me despite of there was a mistake of my family but however they had done all possible way to shield me.

Now a days, I am not working in this secret services, because of disclosure of my identity, unfortunately I had to leave it and I got termination. But I promise that whenever our India needs me I will surely come to serve our India, either this way or other ways.

Episode VII

Operation in Srilanka.

Before leave my service, I had to complete this final mission. We got the information regarding there is an injustice with tamilians and instigate them against India to get a separate nation and agitate India's supremacy and democracy.

The authority was captured a tamilians (Fisher's communities) and other Indian in order to hire them spread a distress in India both political and social.

Another thing was that srilanka met their hands with China and Indian govt. tried to understand about how to keep a relation and how to tackle the threat if Sri Lanka gave its port to develop for trading. However Srilankan government didn't even consider a request of Indian government hence Indian government asked Indian secret agency regarding how to tackle this kind of situations.

All other operations were quite dangerous but this operation was different from other operation because we had to keep our eye on both China and srilanka together and whatever they are planning against India , we had to make it fail and shield Indian Tamil Fishermen and others communities as well.

There was a meeting held in PMO at where prime minister of India , joint secretary , national security advisor , chief of

intelligence bureau and chief of central bureau of investigation, inter border intelligence service , Naval Intelligence Service, Airforce Intelligence Service, all were together discussed on the collected information from the different agencies and put a final conclusion then this operation would be joint venture of Research Wing and Bureau Of Indian Intelligence and also naval Intelligence service of India and we were asked to make a proper plan in order to execute entire operation.

Within one week of the duration, we made a proper plan and after than we gathered again at prime minister Office. In the meeting, we were discussed about the plan and also execution and also list of the officers who were in the action. After discussing at the prime minister office, we were finalized everything and we started to work on this plan.

However this was a joint venture among the chosen agencies were put their proposal regarding the officers who were in the action. Another thing was, we needed to allocate the works to the different people means as per their skills and knowledge.

Total 12 officers who were worked in this operation.

6 officers were from R&AW (Research & Analysis Wing).

2 Officers were from Indian Naval Intelligence Service.

2 Officers were from Inter Border Intelligence Service.

2 Officers were from Bureau of Indian Intelligence.

However, we had already allocated a different kinds of works with an officers and we planned to launch this operation on 28th September 2018, we had decided a plan to launch this mission.

We started to a journey to move srilanka to execute this operation. We Booker a flight from Delhi to Madurai and we reached there. First I reached there and I was looking for other officers. We decided to meet in Madurai, some people were booked their flight uptown Chennai and they decided to come Madurai by the road.

After waiting for a long, we all reached Madurai and organised a meeting and we all 12 people were decided to divide in 4 teams. The different kinds of works we allocated and they had to execute their works in different places.

Total 12 officers' team.

First Division Total 4 team. Each team had a 3 officers.

Out of these 4 teams, there were also 4 more sub teams.

Team 1 ➔ Landed at Western region (Colombo city) of Srilanka.

Team 2 ➔ Landed at central (Kandy) regions Of Srilanka.

Team 3 ➔ Landed at Northern Region (Jaffna Port) Of Srilanka.

Team 4 ➔ Landed at Southern Region (Galle Porte) Of Srilanka.

Second division from first division.

Sub Team 1 ➡ landed at North Eastern Region (Okanda Port) Of Srilanka.

Sub Team 2 ➡ Landed at South Eastern part Of Srilanka (Hambantota Port).

Sub Team 3 ➡ Landed at South Western Part of Srilanka (Sabaragamuwa City).

Total duration of the operation was 4 months at where we worked and executed our plan in a proper manner. Day by day, we came to know many things and after collected all such information regarding this operation from the different officers who were situated in a different regions of srilanka.

We prepared the final report regarding this and that report was submitted to the prime minister office of India. After a brief analysis of that report, we were concluded how to stop this kind of conspiracy of china against India and how to stop Indian tamilian fishermen who were associated with srilanka and worked against India and also India's integrity.

We had prepared another ground report in which we were mentioned about that kinds of steps should be taken in order to tackle the situation as well as stop to instigate these tamilians against India. We made a proper plan and after these particular plan, we executed these all things in a simple way to tackle all things.

However we caught suspicious people who were instigated tamilian fishermen in Srilanka against India. We tried to

get the exact root of this phenomenon because we wanted to break down the backbone of this phenomenon.

Finally we got to know everything and collected all information and send to high command and prime minister Office (PMO). We were waiting for a final response from high command and PMO.

Ultimately we got a response and ordered us to destroy all these people and also break down the backbone by this operation. We followed the order and mission got accomplished accordingly.

Episode VIII

Mission in Bangladesh.

Our team had traced something which was very critical and dangerous and I asked my officers to stand by in this operation. Actually we were decided to go there and I also wanted to go there in order to support them physically but ultimately I found that our team kept me on stand by and I needed to operate from India only so immediately I shifted to our headquarter and we started to communicate them and my duty was to pass the coordinates or exact locations of the suspected people. I did the same accordingly and ultimately we track down these people who were involved in the malpractices against india. I did my best in this operation.

Episode IX

Personal Life Struggle.

My life was very terrible after 2019. I faced many difficulties in my life and I was alone and my father wanted me to get married with someone in order to get a stability. I got enrolled in Master in Corporate & Financial Management Form University Of Europe For Applied Science, Berlin Campus, Germany Europe and simultaneously I was researching in German Chemical Society on the breast cancer. My father made a profile on matrimony website in order to find out the bride for me. I came in contact with one of the girl from Bhopal. She is pursuing PhD in chemical engineering (solar cell) and she and I both were interacted with each other and we came very close, very well. She liked me most because my nature was totally unique and extra ordinary. I had devoted my life to my lord Krishna and trying to help the people and access my love and respect. That girl was superb and extremely supported person, she went any extents to support me.

She loves and respects me lot after that I came in contact with one more girl who is from Delhi. My father preferred her for me when I was in Germany, I started to communicate with her. I was totally confused at that time and I couldn't understand what should be done in this case. I wanted to work for India hence I started a pharma company but I didn't want to use my name and I didn't

want to be director of the company however I didn't have any options, I added my name as the director of Human Shield Pharmaceutical Company, which was registered in Ahmedabad ROC and I had also added one more director, that was Delhi based and to add her name in the company was biggest mistook of my life. She was psycho and very possessive but I wanted to use her name to serve my India that was my misconsideration about her that she will cooperate me to support my beloved India. She started to play a drama with me and she stated that if you get married with me then only I support you and allow you to start you company, actually I didn't have to use my name in the company but I used hence there was a risk on my life as well as my officers. I was a main person in the network hence by using my data, the terrorist group started to kill my network by killing my officers. I lost 7 officers because of this action. My life was on serious mode and that Delhi based girl didn't understand my situation and started to black mail me to get married with her.

In my life I met many people but I have never met this kind of lunatic person in my life such an absurd person.

I had gone through severe pain and depression, I had face very difficult situations in which I was abusive. Anyhow I had to accept her conditions to get married with her in order to start the company – Human Shield Pharma and also protect the lives of my officers and after that she transferred the paid of capital so I could manage to start my pharma company.

That my friend from Banaras, she was very genuine and pity and always helping in nature. I had communicated with many people but I had never met the person like her, she was a god for me, always adorable person for me. She advised me that you have to accept her conditions now and after that you will have to kick her out from your life because she is not good for anything, neither good human being nor good wife or nothing. And she is wickedest person. She also added that you are very patriotic person and you will have to understand what does our India require most and if you have to kick her out in order to serve our beloved India then nothing wrong in it hence according to the advice of my Banaras based friend, I followed and I was too good in manipulation and all. After subsiding everything with that Delhi based girl , I started the fund transfer process, I asked someone who can help me in fund transfer and that person was Mr. Santosh and I and him both were arranged 2000 crores channelized from Dubai to India in order to start my project for my beloved India. I always wanted to create an employment for my Indian people and I also wanted to help my family of secret service officers who were sacrificed their lives for our beloved India.

However it was very critical time of my life and I wanted to pass that time smoothly but my many efforts went vain. I tried lots to channelize the funds of Rs. 2000 crores for my pharma company but I could not complete the transaction. That Delhi girl was very much psycho, she did all such a things to obtain me completely. She did black magic on me

to get me after that it was terrifying me, I could see the body less head in my room, I was not able to sleep in my room, I started to sleep in ISKCON temple, and I attempted to suicide more than 5 to 7 times because of that Delhi based girl and because of that Delhi based girl's black magic.

However I could come out from this situation but because of her psychotropic behaviour she wasted my 4 years and I could never forget that period in my life as I would consider that as black or Dark period of my life when Delhi based girl came into contact with me.

I did have a supreme faith on my lord Krishna hence I could survive even if that very adverse conditions.

Episode X

Mysterious Girl from Canada.

Most joyful period of my life when I came in contact with the magic girl from Canada, she is basically from Mumbai but settled in Canada. I explained her my each and every conditions of my life and asked her to help me to serve our beloved India. The magic girl left Canada for me and came back to India. She loves me and respect me lots and we started a new project that is Bharatvarsha Airline & Aviation for my beloved India. She sacrificed everything for me and she worked for me and also for my dream for India. We initiated this project in 2024 and we went to Dubai for this project and initiated this project from Dubai. We both were faced too much adverse conditions while forming this Bharatvarsha Airline & Aviation. As private pilot, I want to propagate the culture and heritage through the airline.

I found a girl like magical girl from Canada who understand me and support me to fulfil my dream for my beloved India and I would always thankful to that Banaras based girl , she was goddess for me and I would always worship her throughout my life.

Episode XI

Operation in Dubai.

This operation was most memorable operation. In this operation I struggle for money and face many issues like social, cultural, and financial and many more. I and that magical girl from Canada wanted to work for India hence we wanted to start our Airline & Aviation company hence we flown to Dubai in order to start our new project and first time in my life, I had used my original passport because I needed to register the company in Dubai and transfer all the funds in Dubai and Dubai will be headquarter of our airline. I made an mistook to use my passport and I was trapped at there and I was on surveillance in Dubai and these people started to follow me and that was informed by my team, you have been followed by some so be careful and I hadn't much money in my pocket and our team couldn't reach me and not able to help me in this context. I and that magical girl from Canada roamed in Dubai's street then I and that magical girl travelled to Abu Dhabi from Dubai in order to get captured the flight to get however we both were stayed there in Abu Dhabi Airport but before to leave Dubai, I hit two suspected people in Deira, we captured them in the night because the operation was executed entire night. I was stayed in Bur Dubai and it was executed such all things in Bur Dubai and business bay then I shifted to Abu Dhabi for further works.

I had been there almost 5 to 6 days in Dubai and executed all the works at there, ultimately I arranged everything in dubai to come back to india.

More Detailed About Dubai Mission.

I am telling the real incident of my life which has been happening with since 1st April 2024. I am describing that things which are very difficult to express and only that person can understand who have worked in secret services.

I have lots of faith on my beloved Lord Krishna and with a blessings of lord , I have arrived in UAE for new project , the project is aviation – Bharatvarsha Airline & Aviation which is very unique and new project.

New ear of airline and aviation is going to commence with this Bharatvarsha Airline & Aviation.

As I have planned to establish our airline's headquarter in Abu Dhabi , UAE.

As soon as I landed in Dubai Airport , my passport & visa were double verified by UAE Immigration officers and I came out from the airport (Dubai International Airport) ,I took a snap with Indian national flag (my life -tri-colors) , I was feeling very proud that I had hold Indian national flag in UAE.

Later on I booked taxi and started for hotel. I have already booked Hotel Majestic City which is located in Bur Dubai (Near Business Bay). The nearest metro station was Shraf DG Station (Green Line). I had a meeting on same day for company registration and started a process to obtain aviation license for Bharatvarsha Airline & Aviation. At mid night of

arrival day in Dubai , the threats were received by me from some organized criminals groups (OCGs).

I got informed by my officers who are located in UAE that you have targeted by terrorist group which is Jaish E Muslim so be aware and immediately leave dubai and your hotel but I neglected the instructions of my officers that and same three days I stayed in same hotel but later on my officers told me to not use your bank account (credit cards & debit cards). When I left the place I had 50 dirhams in my pocket. I left empty hands , I didn't know where I was going and what ought to do and what not, I was running here and there , I got a threats constantly , but as I am warrior of motherland India so I can't let down my motherland India. I have started my journey with new intention that whoever are searching me and wanted to kill me , I will not spare them, hence we started to plot strategy to catch these terrorists.

We have started the search operation in Dubai without my actively involved in the search operation, I have stopped to use my devices because through the number and connectivity with WIFI , my devices were being traced down.

I have roamed in dubai's street , from one place to another like union to ibn battuta , jabal Ali , Sharaf DG Station, world trade center , financial city etc in order to search these people who are behind me.

One night I was staying at Al bakara al siddique station which is on green line metro station and far away from central part of dubai.

Ultimately we found two terrorists from etisalat area of Dubai.

On second day I have left for abu dhabi from ibn battuta metro station , I caught a bus because I wanted to take a flight from Abu dhabi to Ahmedabad.

Today I am survive because of the supreme grace of lord Krishna. I have asked for leave UAE immediately but I came UAE for certain purpose and until and unless the purpose won't be served how can I leave from here ?

I am the warrior and soldier and I can do anything for my beloved India.

I have done and actively involved in many operations in various countries especially Pakistan and Bangladesh but I have never got tears but here first time I got tears in this work. However I know that Lord Krishna is with me and he will never leave in middle hence I could survive and come up like a warrior.

Episode XII

Search & Collection in Srilanka.

This operation was very difficult because this was executed when there was a zero support from the team and the support in terms of technical, mental and also physical. But with the grace of lord Krishna, I executed this operation with too much courage. In this operation, I didn't get a support of my internal team as well as outsiders because I removed as said that I was not mentally fit for this service and it was very terrific for me in this context .

I started my journey for Srilanka from Ahmedabad, I went to Mumbai, we got a new identity and collected our new passport from Mumbai and from Mumbai we went to Chennai. From Chennai to srilanka, I started my journey by flight. In this operation, I had to decoding the already encoded data. I reached Colombo then I went Kennedy and other places srilanka, I was totally astonished to see the beauty of srilanka, it was out of the Imagination. I stayed almost 4 days at there in order to disseminate the data and store that data in the storage and encode then send to prime minister Office India.

I did the same, I had collected all such Important Information from there then I started to decode the information in the safe mode. I came to know many things in this manner but at the same time, I need to meet our

team in srilanka, I met them and we had also tasted the srilankan cuisine. After completion of work, I started my journey for India. I flown from Colombo to Singapore and from Singapore to Mumbai and in Mumbai I met our team officers and I handed over all the encrypted data then I also discarded the new Identity's documents then started my journey to Ahmedabad.

Episode XIII

Operation Rathore in Bangladesh.

When you are in love with motherland India, then you won't think about the consequences and go beyond the limitations. The limitation means what? Physical limitations or Mental Limitations? It would be both. This life is only for India then why should I think about the consequences.

The journey started from Delhi when we heard about one dead body found in the flat of Jamianagar, the dead body of 23 years old boy and local police started investigation and investigated as suicide but the autopsy report actually showing something else. In the autopsy report which revealed many things which made all of us to be shocked. Autopsy report said the dead body had passed from the multiple surgeries at stomach area and huge amount of cocaine found in his body and 3.5 kg cocaine bag found in his stomach which was sealed packed but some amount of cocaine was leaked in his body hence he died.

After getting autopsy report, local police informed to NCB (Narcotic Control Bureau) and NCB informed to Indian External Spying Agency that is Secret Service Officers. Now Secret Service Officers is coming in picture. As a chemist and research scientist, Secret Service Officers has appointed me as Chief Investigating Officer In this case.

First here, we have to understand the entry of Secret Service Officers in this case. Why did NCB inform or involve to Secret Service Officer in this case?

The Reason behind the involvement of Secret Service Officers because was the NCB found the drugs cocaine and there were few documents and pen drive from the stomach of dead body which indicated the serious issues on the national security of India.

We had examined all the documents and received the conclusion from our team, I was also part of this team. I had done all the investigations at the ground level but there was required to understand more all the documents.

2 days consequently, I had examined all the documents very carefully and I found something different in the pen drive by unlocking the locked documents. I got the code and picture which was something like a plan for the terrorist attack on India that is the city of Calcutta. I had decoded the data and informed the principal secretary of PMO and also other divisional head of R&AW. We had an emergency meeting on high alert. In that meeting, we all were determined that Dr Rathore will have to go Bangladesh and identify the root and completely demolish it.

The committee had decided the members of team which will be sent to Bangladesh for investigation. This operation is called “ Operation Rathore” the plan for the operation Rathore had been evaluated and rehearsal had been

started , because we wanted to make it full proof plan and demolish the root of the case which were we found.

2 days practiced and rehearsals, we were divided 6 members team into 3 and each had 2 members in team and because we were found 3 suspected locations of the root of this case. These locations were Mirpur, Chittagong and kulana. Team Alpha, Beta & Charlee and I was in team Alpha along with other members. We were chosen different routes to access the land of Bangladesh.

We all were departed to get conquered on the enemies. The chosen team had accessed the land of Bengal Tiger that the marine route and from Calcutta, we were reached the Chittagong port and entered into the land of Bangladesh.

Our fake identities were....

- 1) Mustal Hakim Abdulla – My Identity.
- 2) Iliyaaz Khan – Other Member's of my team.

We both were entered in the territory of Bangladesh on the tourist visa. This was not first time, I had accessed the land of Bangladesh.

We were 3 days on our hands so demolish the root cause. We had visited the suspected location in the night but we didn't get any information from there but the 2nd day's early morning, we got some clues which helped us lots to identify the suspected people and we started to observe the activities of the suspected people's location and that was Bar & Restaurant.

I asked my member to start fruit stalls or hand cart near the suspected locations and I, myself started to beg before that location as beggar in order to keep these people on surveillance. I became a beggar and started to beg in front of suspected location in order to observe the activities of these people. We had have a local agents who would have helped us lots in this operation. Almost 48 hrs begging before that bar & restaurant, we were found the one person who was most suspected person in this matter so we started to follow him and we captured him from the road which was passed from the jungle area.

While begging before bar & restaurant, I had a food from garbage bin and slept on the foot path. I could bare all such a thing because of my love for my India. I am only living for India and I can go to any extent for my beloved India.

We were asked the team Beta and Charlee to come at our location and we were started to interrogate that caught person. We knew and our intention was to stop terrorist attack on the city of Calcutta hence we were focusing on it.

We were brutally interrogated and applied third degree which was very terrible otherwise that person would have never opened his mouth. We were found all the information which we wanted to know hence we had conveyed all the information to our head office and we killed that person very brutally, we found one old acid factory near by my area and which was closed since 10 years. Hence I asked my team member to take that person at that place and throw him into the acid. In the acid factory, there

was a one container which filled with Nitric Acid and Nitric Acid is very strong acid within few hours, it can be fused even bones and there were no evidence left behind.

And we did same and conveyed all the information to our senior and we got an order that come back to India as soon as possible because we needed in India at Calcutta to stop the attack. Actually all didn't want to come back India as we decided to demolish the root but unfortunately we were obliged to follow the senior's order.

So we came back to India but we were chosen the different routes.

Episode XIV

Glance of Child Life.

My childhood was very interesting, I born in Dwarka City Of Gujarat, India. I born in middle class family, my father was government servant and mother was householder. My father was strictly following the principles in his life and he also taught me the same. I would always say, my father's teachings are the best and from my childhood, I have been following Shrimad Bhagvad Gita and there are many gods but my favourite and the god who is situated in my heart is only lord Krishna.

I have been rereading about Dwarkadhish lord Krishna, I made my lord and to obtain my lord Krishna as the supreme goal of my life.

My schooling was superb and I was very studious and hardworking kid.

When I was in 8th class , I got 2nd rank in the class in the first exam after that I had too much ego but after that I got failed in the 2nd exam but in the 3rd exam , I got 3rd rank in the class. The moral of this incident was to not keep ego if we got one success. When I was in the 9th class, I got 2nd rank in the class and first rank in the second in the final exam.

I was very naughty in my childhood and I always annoyed my parents with my different stubborn wishes. I was also stubborn and strong determined kid, once I decided, I won't think twice.

Episode XV

Statement.

These above stories are based on the real incident of the secret service officer who truly worked for India without thinking twice. This book is dedicated to all those officers who have sacrificed their lives without having any expectations to get back whether fame or honour or wealth. I bow down my head at billion times to those all officers who are working in the secret services who are very unfortunate that they are not even entitled to get 2 Gaj land for their cremation in their own country. We will find many people who are serving in the uniform but these people who would never take on the uniform on their bodies but they have a spirit and lunatism for our beloved India that lead them to go any extent to serve our India. We are very fortunate that we born in India, the country which has a culture, religion and also ethics, we all have to love and respect to the culture and heritage of our beloved India.
